

# THE TINY EXPLORER

Once upon a time, in a land filled with trees and grasses, there lived a tiny explorer named James. He was 29 years old, brave and curious little creature who loved adventure and to explore more and more about nature. He was in third standard and used to read a lot of fairy tales stories. One day he wore his tiny explorer hat on his head and decided to explore a beautiful flowers garden. He reached the garden walking with his tiny feet and when he saw the flowers in the garden his eyes were sprinkling with the bright colours of the flowers. He explored that how much beautiful nature is and he should also contribute the nature so he decided that he will come everyday to explore garden and try to clean the garden by picking up garbage from the garden and throw that garbage in the dustbin so that garden's beauty remain same and many other tiny explorer like him could explore the beautiful flower garden.

Then onwards he went daily to that garden and one day he met Uncle Rocky who was an sixty seven years old man having long white hairs and wearing a long boots with a similar kind of explorer hat that James wore.

James told Uncle Rocky that James was born on August 4, 1965.
